1. The attached report on Combat Intelligence Analysis was developed by a select task force in response to your tasking of 31 October 1984. The report has been endorsed by all task force members. In essence, the report notes that:

- task force discussions were confined to a review of the coordination process involved in this matter (a decision which is consistent with the DIRNSA's further guidance);
- the CIPC not conduct a detailed study of this issue;
- all but one recommendation is delegated to the Defense Intelligence Agency, as the responsible Community intelligence component concerned with this issue; and,
- continued budget/programmatic support for DIA's effort in this area is to be encouraged.
